Mr. Eugene Valentine
SBC/Ameritech
4918 West 95th Street
Oak Lawn, IL 60453

Dear Mr. Valentine:

This letter is to confirm our intent to Modify our Authority to Operate of Marion County 9-1-1 System. The reason for the Modification is due to Equipment Consolidation, Change in Back-Up PSAP and Inter-Governmental Agreement with Clay County.

Enclosed is your copy of the Modification to the Illinois Commerce Commission. If you have any questions, please contact Tom Ling, Marion County 9-1-1 Coordinator at (618) 548-3685 or e-mail at tling@marionco911.com. Thank You.

Sincerely,

Leon Duis
Chairman
Marion County Emergency Telephone System Board

Narrative

*** MODIFICATION ONE ***

Several Years Ago, the Marion County 9-1-1 Equipment sub stained several thousand dollars in damage due to Lightning Strikes. The ETSB hired a Lightning Consultant from Florida to survey and determine what step could be taken to reduce the amount of damage due to Lightning Strikes. The consultant company determined due to the age and the construction of the existing PSAP's at Centralia and Salem that the most effective way was the construction of a facility that was designed for the equipment.

In July of this year, the ETSB approved for the Construction of a New 400 Square Foot Equipment Facility on Land owned by Marion County ETSB, and a 144 Square Foot Tower Facility that replaces a existing Tower Facility.

The equipment that will be housed in these facilities will Consolidate the High Dollar 9-1-1 and Radio equipment from the existing Centralia and Salem PSAP's. The communications from these facilities to the existing PSAP's will be via Fiber and a Dedicated T1 Line. As part of this upgrade a New Wireless Phase II capable 9-1-1 System will be installed replacing the existing 9-1-1 Systems that reside in Centralia and Salem PSAP's.

Clinton County has agreed to be the Backup 9-1-1 System (Agreement Attached). In the event that Clinton County receives a 9-1-1 Call for Marion County due to a Overflow or a Equipment Failure, Clinton County will contact the Centralia PSAP via Telephone, Radio or via LEADS for the dispatching of the call.

*** MODIFICATION TWO ***

Marion County ETSB has entered into a Inter-Governmental Agreement with Clay County for the handling of 9-1-1 Calls that resides within the 245 Exchange of the Frontier Telco. (Agreement Attached).

Clay County found that is was financial feasible for any calls that reside within the Frontier 245 Exchange (Farina) to be answered at a Marion County 9-1-1 PSAP (specifically the Salem PSAP) for the approximate 72 Customers.

Once the call is received at the Salem PSAP from the 245 Exchange in Clay County, the Salem PSAP Telecommunicator will verify Address, Telephone Number, Nature of Problem and will then transfer the call to the Clay County PSAP (Flora PSAP) for dispatching services.

Calls will be answered at the Salem PSAP and then Transferred to the Clay County PSAP for dispatching purposes.

*** ADDITIONAL INFORMATION ***

Marion County ETSB has entered into an Agreement with Clay County ETSB. As part of the agreement, Marion County ETSB agrees to be the 9-1-1 Backup for Clay County ETSB.

INTERAGENCY AGREEMENT BETWEEN THE COUNTY OF CLINTON
ETSB AND COUNTY OF MARION ETSB FOR ENHANCED 9-1-1 EMERGENCY
TELEPHONE SERVICE BACKUP SERVICE

THIS AGREEMENT is made and entered into this 4th day of August, 2004, between the County of Clinton Emergency Telephone System Board, hereinafter referred to as "Clinton County ETSB" and the County of Marion Emergency Telephone System Board, hereinafter referred to as "Marion County ETSB."

WHEREAS, Marion County ETSB has determined that it is benefit of the citizens of Marion County that the Clinton County Sheriff's Office PSAP act as a 9-1-1 backup PSAP for the Marion County 9-1-1 system,

NOW, THEREFORE IT IS HEREBY AGREED THAT,

1. In case of an outage or overflow condition affecting the Marion County 9-1-1 system, 9-1-1 calls originating within Marion County will be routed to the Clinton County Sheriff's Office PSAP for answering.
2. Clinton County ETSB shall make no charge for any services rendered under this agreement.
3. Any additional trunking, networking, or hardware (including but not limited to computer, telephone and radio systems) required to be installed to provide backup 9-1-1 services for that party shall be the responsibility and expense of Marion County. Maintenance, repairs, and insurance shall be the responsibility and expense of that respective party.
4. Any permits, licenses, or approvals required from other government agencies (including but not limited to the Federal Communications Commission, other Federal agencies, State Agencies, etc.) shall be the responsibility of Marion County ETSB.
5. Clinton County ETSB will provide a channel on it's current voice recording equipment to record radio channels and telephone lines used to answer Marion County emergency agencies.
6. Any records (including but not limited to paper, computer files and printouts, and audio recordings) generated as a result of calls handled under this agreement shall be the joint property of both parties.

7. In the event of a protracted outage (normally exceeding four hours) affecting Marion County ETSB, Marion County shall provide one qualified telecommunicator twenty-four hours per day, seven days per week, to be located at the Clinton County PSAP. This telecommunicator shall augment the Clinton County PSAP staff until such time the outage has been rectified and Marion County is again able to answer their own 9-1-1 calls. All costs of this telecommunicator shall be the responsibility of Marion County.
8. Any notices to the public or press releases concerning 9-1-1 operations and dispatch for Marion County being rerouted to the second party shall be the responsibility of the Marion County.
9. Marion County shall notify Clinton County as far in advance as possible of any known condition (such as equipment repair, network changes, etc.) that may require the Clinton County to assume 9-1-1 services for Marion County.
10. At a mutually agreed time, no less often than once per month, 9-1-1 telephone systems will be tested. As a minimum, this will include activating the "call divert" switch, and making test calls to assure 9-1-1 calls properly reroute to Clinton County. It must be understood that there is a real possibility that actual 9-1-1 calls from the public may occur during the testing.
11. Each party shall indemnify and hold harmless the other for any actions taken under this agreement.
12. This agreement shall be reviewed annually and if no action is taken shall automatically renew itself for an additional year.
13. Nothing in this agreement shall relieve Marion County of its primary obligation to answer, dispatch, and otherwise handle 9-1-1 calls originating in Marion County. It is understood that the purpose of this agreement is solely for the purposes of short-term rerouting of 9-1-1 calls due to disaster, overflow, equipment maintenance and similar situations.

IN WITNESS WHEREOF, the undersigned agencies have set their signatures on the respective dates set forth below. This document may be signed in duplicate originals.

**INTERAGENCY AGREEMENT BETWEEN THE COUNTY OF MARION ETSB AND
COUNTY OF CLAY ETSB FOR ENHANCED 9-1-1 EMERGENCY TELEPHONE
SERVICE BACKUP SERVICE**

THIS AGREEMENT is made and entered into this 26TH day of February, 2004, between the County of Marion Emergency Telephone System Board, hereinafter referred to as "Marion County ETSB" and the County of Clay Emergency Telephone System Board, hereinafter referred to as "Clay County ETSB."

WHEREAS, Clay County ETSB has determined financially that it is in their best interest and a benefit to the citizens of Clay County that Marion County PSAP answers any 9-1-1 Calls originating from the 618-245 Exchange of Frontier Telephone Company, Farina Exchange.

NOW, THEREFORE IT IS HEREBY AGREED THAT,

1. All Calls originating from the Farina Exchange in Clay County will answered by Marion County ETSB.
2. Marion County ETSB will confirm location and Nature of Call.
3. Marion County ETSB will Transfer the Call to Clay County ETSB and ensure that a connection has been made. This will be accomplished by conversation beginning between the Clay County 9-1-1 Telecommunicator and the Caller. At that point, Marion County 9-1-1 Telecommunicator will release from the call.
4. Clay County ETSB shall reimburse the Marion County ETSB any and all 9-1-1 Wireline Surcharge Money coming from any citizen within the above exchange. The surcharge shall be reimbursed to:

Marion County 9-1-1
P.O. Box 1175
Salem, IL 62881-6175

This reimbursement shall begin 30 days after Clay County ETSB "Cuts-Over" Enhanced 9-1-1, as shall then be due the End of each Calendar Quarter. (i.e. March 31st, June 30th, September 30th, and December 31st)

5. Marion County ETSB shall not be held Liability Responsibility for any occurrence that occurs once the Transfer and Connection is made.
6. Each party shall indemnify and hold harmless the other for any actions taken under this agreement.
7. This agreement shall be reviewed annually and if no action is taken shall automatically renew itself for an additional year.

IN WITNESS WHEREOF, the undersigned agencies have set their signatures on the respective dates set forth below. This document may be signed in duplicate originals.
